Oxfordshire Health Trust NHS is looking for interested people from Buckinghamshire to get involved with oversight and governance of secondary/acute mental health. The next few years in Buckinghamshire will be quite exciting with the opening of a major new facility replacing Manor House in Aylesbury for the care of mental health service users - whether acute patients or those receiving ongoing therapy and support. At £40m it's the biggest capital investment in Aylesbury for a while and as a centre will have a national standing.
